

PARENTS RESPONSIBILITIES

- Parents should make every effort to ensure their children arrive at the pool in adequate time to participate at the very start of a training session.
- Parents are responsible for supervising their own children in the changing rooms or any other part of the leisure complex.
- Young children aged 13 and under must have a parent present within the leisure complex. If this is not possible, please ensure the coaches are notified on all occasions if a responsible adult will not be available, and that a current emergency telephone number is on file.
- The Club asks that parents do not interrupt the coaches but save any questions for the end of the session.
- It is important that information on all medical conditions or allergies be declared to the Club on the membership form as well as emergency contact numbers. Any changes to these must be noticed to the Club via the membership secretary.
